Alinhamento simples

• Aquele realizado entre seqüências de DNA ou proteínas, desde que par a par.

```
Score = 652 \text{ bits } (329), \text{ Expect = } 0.0
Identities = 240/240 (100%)
Strand = Plus / Plus

```

Alinhamento Múltiplo

- Aquele realizado entre MAIS DE DUAS seqüências de DNA ou proteínas ao mesmo tempo.
- Busca a melhor combinação de alinhamento que satisfaça todas as entradas.
